*“Dr. Dan goes one step further to teach individual stretching and strengthening exercises that are simple and effective to help prevent future sport injuries. I am continuously impressed with his passion for education, wellness, and his dedication to improving the lives of others.”*

– Keith Pollak, Bay Area Tennis Pro

*“Dr. Dan encouraged me not to have surgery for my carpal tunnel symptoms until he had a chance to work on my wrists. In a short period of time, I no longer needed wrist braces and after a month, the pain and finger numbness disappeared! Two years later, I am still pain and numbness free.”*

– Steve Listug, San Rafael, CA
